Art Unit: 1712

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1 to 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Halloran.

Applicants have amended the claims to an emulsion in which the silicone polymer is dispersed in the continuous phase. Such an emulsion meets an oil in water emulsion wherein the water continuous phase must contain a diol in amounts required by the claims.

Halloran teaches silicone oil in water microemulsions. The emulsions contain a silicone oil component, water, a surfactant and a cosurfactant. See column 4, lines 50 to 60, which teaches the amounts of each component. When the composition contains 50 wt% water, 5 wt% surfactant and 15 wt% co-surfactant as the continuous phase, the composition can be considered as having "about 25% by weight" of cosurfactant, given the breadth and latitude accorded to the term "about". Column 6, lines 40 and 41, teaches various diols that can be used as the cosurfactant.

Thus Halloran teaches a silicone oil in water emulsion in which the continuous phrase, the water phase, can contain diols in an amount within the claimed range. As such one having ordinary skill in the art would have found the claimed emulsion to have been within routine experimentation and optimization of the teachings of Halloran. In view of this, the instant claims are rendered obvious.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1712

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
